COMPANYNEW ENGINE IS  
A WONDERD. W. Stone of Trinidad Will  
Open Offices Here for Dem-  
onstration of Recent Inven-  
tion Made in Colorado.

A new engine, which burns kerosene, refined or crude, is said to be the simplest and most efficient for pumping water or irrigation, and the evidence manufacturing it will shortly open offices here in the Barnett building where they will arrange to demonstrate the engine's efficiency. D. W. Stone, owner of a daily newspaper in Trinidad, Colorado, where the engine is manufactured, is in the city and will shortly come here to see it.

The engine, including the fabricating parts, but not twenty-one parts, is said to be the most efficient ever made. It is so simple that a child can learn it in ten minutes and it can be left for hours without any attendance. It is made in sizes ranging from four to twelve-horse power and the demand at this time exceeds the supply. Mr. Stone says he will let the engine speak for itself.

**MINISTER ASSASSINATED**

Cologne, Germany, March 21.—A dispatch to the Cologne Gazette from Peking reports that M. Kerestevets, the Russian minister to China, has been murdered in Peking, thus repeating the rumors which were current in St. Petersburg yesterday.

Accidents will happen, but the best prepared families keep Dr. Thomas Ecker on hand for such emergencies. It relieves the pain and heals the hurts.

Don't Be  
Discouraged

There is a silver lining to every cloud. We may not see it but it is there just the same.

TODAY IS FIRST  
DAY OF SPRING

Season of Baseball, Light Underwear, Grippe and That  
Tired Feeling Has Arrived Along With the Robin.

Tuesday, March 21, is the first day of spring, according to local authorities. It is the gladness season of the baseball fan, marbles by the small boys, and for those who change to light underwear, the sun and that fresh feeling on the part of the young and old which is a sure indication that spring, gladsome springtime, is here.

The robin has been with us for some days now, the sparrows already have their nests, other day, the blackbirds was here in blocks looking for delicate worm and a swallow or two has put in appearance.

Flint trees are in bloom and green leaves are making their appearance, and the young children have already started to look for the daffy, Johnny-jump-up and the violet.

Turning to the amateur, it reads like this, "Vernal equinox begins March 21, 1911 at 1 p.m." This is the scientific way of saying spring is here.

There is a sure means of telling however, as every mother knows, when the boy with the pocket full of marbles, begins to kick about splitting the marbles and has to be watched to keep him from casting aside shoes and stockings, then spring is here, almanac or no almanac.

For further evidence note how many of your neighbors have the grippe. Fortunately, the young poet has not as yet put in his appearance,

E. F. Ollie is here from Raton.

George Van Way is in the city from Whitfield, Kansas.

Born—To Rev. and Mrs. S. E. Addison, a baby girl, Saturday evening.

F. H. Mudge, well known Santa Fe attorney, and ten men are in the city.

J. L. Leavitt of Conception, N. M., is a business visitor here.

Roy E. Sandberg is a visitor here from his home near Magdalena.

J. M. Luna, Valencia county official, is in the city from Las Lomas.

W. C. Bullen is here from Santa Fe.

W. D. Radcliffe, well known physician, is a business visitor here.

D. C. Hanawalt, forestry official of Washington, D. C., is a business visitor here.

O. P. Gutierrez was a business visitor here today from Agujones, where he owns a ranch.

Sidney Rosenwald and bride have returned from a wedding trip to the Pacific coast.

Ross McMillin, supervisor of the Pecos national forest, is in the city on official business.

Col. W. S. Hopewell returned today from an extended visit to Pittsburgh, New York, and other eastern points on important business.

The Albuquerque Choral club will meet at 7:30 o'clock Wednesday evening in the studio of Mrs. Himes to hear some work on the sacred cantata "Crucifixion."

District Supervisor Hugh H. Calhoun of the Pecos national forest, with headquarters at Santa Fe, arrived in Albuquerque this morning and will be detailed to the district office for a short time.

Mrs. Sigfried Grunfeld and children have gone to El Paso, where they will remain for a couple of months visiting friends. Mrs. Grunfeld will later join them there for a brief vacation.

C. C. Minnis of 220 South Edith street returned yesterday from San Jacinto Hot Springs, Calif., very much improved in health. Mr. Minnis had been suffering from rheumatism.

All members of the old Company G, Albuquerque National Guards, will appear at the armory tonight for drill and a special meeting, by order of the captain. The Spanish American company will also report for a preliminary muster and inspection, by Colonel Robert Smart.

The meeting of the Civic Improvement society, which has been called for this afternoon at 4 o'clock, will doubtless bring out a large attendance of those interested in the development of the city along advanced lines. Plans to "clean-up" day will be discussed in detail, as well as the general improvement of the city. It is expected that the efforts of the society will soon result in the establishment of one or more public playgrounds for the children of Albuquerque. The annual election of officers of the society will also be held, and a full attendance of the membership of the society is expected.

Miss May Rose of the educational department gave several readings in her delightful manner and Mrs. John D. Clark, whom the university claims as its very own, gave several exquisite violin numbers.

The organ work by Stanley Seder was up to his usual high standard of excellence and the work of the students of the music department of the university could not have been better.

It was a delightful program and the townspeople are grateful to the local varsity and its faculty for the excellent entertainment which they were privileged to enjoy.

**FUNERAL RITES ARE HELD FOR MR. WHITE**

Body Will Be Taken to For-

mer Home in Illinois for

Interment; Masons Have

Charge.

Six new citizens were created by the district court of this county today when final naturalization papers were granted to two faithful sons of the Emerald Isle, two from sunny Italy, one from Austria and one from Switzerland.

Father Capilipi, rector of the San Felipe de Neri, becomes a citizen of the United States at the age of 72 years. The new citizens are:

Joseph Shansky, age 32, a native of Austria; Fred Tagliari, aged 27, a native of Italy; Francis McLoughlin, aged 49, a native of Ireland; Fritz Joachim, aged 31, a native of Switzerland; Edward J. Kerley, aged 28, a native of Ireland; Edmund M. Chapman, 81, a native of Italy.

**PECOS OIL FIELDS WILL BE DEVELOPED**

Atrosca, N. M., March 21.—Report comes that work is to be started soon developing the oil prospects in the Atrosca-Dayton field. A man from Chicago who represents almost unlimited capital is now said to be looking over the ground and is said to have expressed himself favorably on the matter of putting in the money to develop all the oil prospects now in sight. According to reports here today the work is to be put to a finish this summer and the question as to whether there is oil in that section of the valley is to be settled.

**REMOVAL NOTICE**

Harry T. Johnson has removed his auto, bicycle and general repair shop to 492 W. Central avenue, Stern building.

Standard Plumbing & Heating Company

## LOCAL AND PERSONAL

## THE WEATHER

Tonight, except local snow in north-  
west portion; not much change in temperature.

The Evening Herald will pub-  
lish all church news and similar  
notices without charge. The only  
request made is that they be plainly  
written on one side of a sheet of paper only, and that  
they be sent to this office as early  
in the day as possible.

E. F. Ollie is here from Raton.

George Van Way is in the city from Whitfield, Kansas.

Born—To Rev. and Mrs. S. E. Addison, a baby girl, Saturday evening.

F. H. Mudge, well known Santa Fe attorney, and ten men are in the city.

J. L. Leavitt of Conception, N. M., is a business visitor here.

J. M. Luna, Valencia county official, is in the city from Las Lomas.

W. C. Bullen is here from Santa Fe.

W. D. Radcliffe, well known physician, is a business visitor here.

D. C. Hanawalt, forestry official of Washington, D. C., is a business visitor here.

O. P. Gutierrez was a business visitor here today from Agujones, where he owns a ranch.

Sidney Rosenwald and bride have returned from a wedding trip to the Pacific coast.

Ross McMillin, supervisor of the Pecos national forest, is in the city on official business.

Col. W. S. Hopewell returned today from an extended visit to Pittsburgh, New York, and other eastern points on important business.

The Albuquerque Choral club will meet at 7:30 o'clock Wednesday evening in the studio of Mrs. Himes to have the last entertainment of the series given by the varsity, the other programs having been given in the public library.

The affair was under the auspices of the music department of the varsity, but every department, including the president himself, contributed to the program.

Every number of the program was well rendered and the whole affair was a credit to the institution. Dr. E. McQueen Gray made his first public appearance as a soloist and delighted the audience as well as surprising the many who were present that had never heard the doctor in such work. His selection, "The River of Years," was well calculated to show the beauty and strength of his excellent voice.

Miss May Rose of the educational department gave several readings in her delightful manner and Mrs. John D. Clark, whom the university claims as its very own, gave several exquisite violin numbers.

The interior of Newfoundland was completely isolated for several days, scarcely a telephone or telegraph wire being left standing. A blanket of snow, reported in some places as being from 20 to 30 feet deep, covered much of the colony and great drifts stalled railway trains at many places.

It is said that a large band of trai-

ners who were operating in another section of the province are missing.

Unless they are found, soon

searching parties will be sent after them.

**MUSICAL WAS HUGE SUCCESS**

The entertainment given by the university at the Presbyterian church last night was one of the best musical and literary treats that Albuquerque has been privileged to enjoy. A large crowd was present to hear the last entertainment of the series given by the varsity, the other programs having been given in the public library.

The affair was under the auspices of the music department of the varsity, but every department, including the president himself, contributed to the program.

Every number of the program was well rendered and the whole affair was a credit to the institution. Dr. E. McQueen Gray made his first public appearance as a soloist and delighted the audience as well as surprising the many who were present that had never heard the doctor in such work. **BIRTHDAY THOUGHTS**

Are you thinking of what to give at the next birthday? You

certainly want it to be an appropriate present? Perhaps inexpensive, too?

Here are several suggestions:

A half dozen silver tea
